

Where We Cruise

©Microsoft Streets & Trips

For 30+ years The Boat Company has conducted conservation tours of Southeast Alaska's temperate rainforest: The Inside Passage.

One-week trips run from Saturday to Saturday and either begin in Sitka and end in Juneau, or reverse the route and go from Juneau to Sitka.

There is no “typical” **Boat Company** trip - each is shaped by your personal interests; combined with the wonderful variety of activities available in Southeast Alaska; hiking, kayaking, fishing, whale & wildlife viewing. Departure and arrival dates are the only part of your itinerary that is fixed. The rest of your journey is planned daily by you, the crew and your fellow passengers - to take advantage of opportunities throughout the summer.
